8th October 2020

Dear Parents and Carers,

We are so lucky to have had some sunshine this week. I absolutely love hearing and seeing the children busy in our new 'Mini-Woodies' and it is so rewarding to hear the children eagerly anticipating their Enrichment sessions, sharing the highlights of their learning to date. Although the Claygate Charter is already at the heart of CPS, we have not completed a full cycle due to lockdown. These activities have so many benefits, collaborative problem solving, perseverance and resilience building. The Charter promotes both physical and mental well-being; so important, particularly at the moment!

CPS began its journey to becoming a Trauma Informed, Compassionate School just before lockdown working with an Educational Psychologist to reflect on policies and practices and offering training to support us towards this goal.

Even during Lockdown, CPS did not stop pursuing every enrichment opportunity available! Very well done to everyone who participated in the Wild Challenge and particularly Mrs Bone and Mrs Traylen. We are now aiming for Gold! A challenge indeed!

URGENT: New morning drop and collection system from Monday.

Please see today's parentmail. Thank you in advance for your support in making the drop off/collection of children smoother and safer for us all.

Cold Weather

Now the weather's turning colder please make sure you child(ren) have a clearly labelled coat in school.

Hats, gloves, scarves and wellies must all be clearly labelled too please to avoid them getting lost.

Many thanks for your help with this.

Newsletter

Pobble

This weeks' published authors on Pobble are:

Elm - Digby & Max

Hazel Class

Hazel class have been trying out some Stone Age cave drawing!

Kuk Sool Won

Emily, Savannah and Molly (Elm class) all achieved a friendship badge/award at Kuk Sool last week. Well done girls!

Outdoor Learning Enrichment Session

In our outdoor learning enrichment session, Years 3 and 5 used the new pontoon for observing dragonflies and pond-dipping for dragonfly larvae.
